

# Exercise 2: HTML

Upload a zip file named USPnumber1. USPnumber2. zip, and include the files for the questions.

- 1. Create an HTML page presenting yourself to the rest of the class. It must have:
  - a. Paragraphs
  - b. Links to other pages
  - c. Images:
    - i. At least 4
    - ii. Same width and height
    - iii. Some of them must have links too
  - d. At least 3 <div>s

They should be used in a coherent way to divide your page.

- 2. Marking up a letter | MDN
- 3. Elon Musk would like to create his Curriculum Vitae. He provided, verbatim, some of the information that is available in the <u>site.zip</u> archive. It contains your photo and some descriptions, which together should be displayed in a Web browser, as shown in Figure 1. Also note that the structure of the compressed file is:

```
site
├── img
├── elon.jpg
└── index.html
```
